

Control TV, movies, music, lights, temperature, security, and much more from a simple remote, or from your smartphone, or from your computer anywhere in the world.

**TV, movies, music, Internet in every room**

Enjoy your personal theater throughout the home, with zoned volume controls or... do something different in every room.

**Payback in comfort and energy savings**

Program the lighting and temperature for comfort throughout your home, to fit your schedule or your lifestyle.

Want it to all turn on when you open your garage door? Easy.

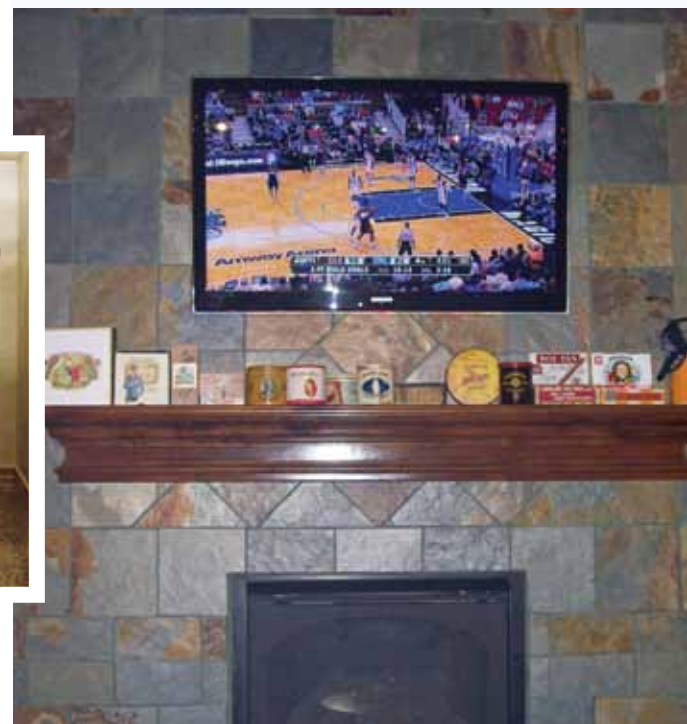

**Security and surveillance at your control**

Monitor cameras and alarms remotely from anywhere at any time.

**Let your home be all it can be!**

**All cabling and controls consolidated in a single location.**

*Modernize any home... affordably!*
